

Sawgrass Nature Center
& Wildlife Hospital

On Saturday January 26, 2013, "flocks" of people are expected to participate in the **Sawgrass Nature Center and Wildlife Hospital's 8th Annual "Go Wild In The Park"** and **3rd Annual Walk on the Wild Side** in Sportsplex Park in Coral Springs. **This family oriented event offers individuals and businesses the opportunity to support and show their concern for South Florida's wildlife and wild places.** **Go Wild in the Park**, which is from 10 am to 3 pm, will feature live wildlife presentations, environmentally inspired vendors, a plant sale, food, games and entertainment. **Walk on the Wild Side**, which begins at 9:30am at Sawgrass Springs Middle School next door, will finish at the SNC and kick off the Go Wild In The Park event.

By combining these two events, your company will reach even more people through a sponsorship for **Go Wild In The Park & Walk on the Wild Side** and will enable the Wildlife Hospital to continue caring for their many injured, sick and orphaned wild birds, mammals and reptiles and help to further the development of the Nature Center and its many education programs. Every dollar raised will help one more baby animal have a better chance for life and one more displaced animal find a new home. In addition, one more child will open their eyes in awe of their new discoveries about the natural world and will learn how to help take care of it. Please help us ensure that future generations will have a chance at a better world complete with birds and bees and trees... not just textbook models of what once was.

This year's theme is "Our Wild Past, Present and Future". Our guests will experience what Florida was like in our past, what effect we are having on our community presently and how to protect our environment for future generations. Attendees will enjoy our professional animal presentations, dance to the music, enjoy the food and stroll down the lane of vendors and exhibitors.

We have outlined **Sponsorship Opportunities** that are available and ask that you join our supporters in promoting good stewardship of Florida's living classroom and encourage others to get active outdoors in Florida.

Once you have reviewed the enclosed sponsorship opportunities, we feel certain that you too will want to participate. If you have any questions, please feel free to contact Robin at the Sawgrass Nature Center & Wildlife Hospital at (954) 752-WILD(9453).

Thank you in advance for caring and sharing. With your help, we can make a real difference.

Sincerely,

Robin

Robin Reccasina, Education Director
